

**Innovative Solutions. Definite Outcomes.**

**Core Competencies**

Federal Guardian provides value-based healthcare solutions to federal, state, and local government agencies through a growing nationwide network of licensed and credentialed medical and behavioral health providers. We offer a variety of services, including:

- Medical, Disability, and Occupational Health Examinations
- Psychological Evaluations, Mental Health, and Non-Medical Counseling Services
- Placement of licensed and credentialed Medical & Behavioral Health professionals; and other specialized Healthcare Support Services

**Mission Statement**

Our primary objective is to improve the delivery of patient care for Veterans, U.S. Military Service Members, First Responders, Public Sector Employees, and their families by facilitating timely, ethical, and professional local coverage for clients, patients, and examinees alike.

We accomplish this mission by employing carefully selected practitioners to ensure the highest standards of care and performance are met.

**Government Past Performance**

**Differentiators**

- SDVOSB with strong past performance supporting large VA and DoD healthcare contracts with the proven ability to fill task orders quickly and efficiently. Some of our relevant work has included the buildout and expansion of our own regional network of licensed providers across the Western U.S. that complete over 200+ in-person and remote examinations each month for Veterans (VBA MDE). We also provide full-time on-site behavioral health services for active-duty military members and their families as part of DoD's Military and Family Life Counseling (MFLC) program
- Experience recruiting, credentialing, and supervising licensed medical and behavioral health providers to deliver services across more than twenty (20+) U.S. States including Hawaii and Alaska
- Seasoned executive management and in-house accounting, legal, HR, and operational support personnel in place to competently meet contract requirements and client needs across the U.S.
- Internal Database of Thousands of licensed Healthcare Workers and Behavioral Health Professionals
- Experience training medical and behavioral health staff on government policies and procedures to ensure compliance with all regulatory and contract requirements
